EDUCATION

Vellore Institute of Technology

Bhopal, Madhya Pradesh

B. Tech Computer Science Engineering specialization in AI and ML

2022-2026

INTERNSHIP

Hewlett Packard Enterprise

Machine Learning Intern

Feb 2025-Jun 2025

- Developed a machine learning model for file type detection by converting raw binary file data into visual representations, achieving 86% classification accuracy and demonstrating strong potential for cybersecurity and digital forensics applications.
- Focused on improving detection accuracy and scalability using advanced ML techniques while also designing an interactive frontend dashboard to visualize model predictions and performance metrics.

PROJECTS

Multilinguo – Language Learning App

Full-Stack Development

- Built a MERN stack language-learning app with interactive exercises and personalized progress tracking, leveraging React for a dynamic frontend and MongoDB for scalable backend operations.
- Extended the chatbot's capabilities by incorporating support for regional languages such as Malayalam, enabling multilingual interactions, and improving accessibility for non-English-speaking users through targeted fine-tuning and language-specific preprocessing.

AutoML Web Application

Full-Stack Development

- Built a full-stack AutoML web app using Flask and MongoDB, enabling users to upload custom datasets and train machine learning models through a no-code interface.
- Automated preprocessing, model selection, training, and evaluation, achieving a user-friendly ML workflow for non-technical users.

SKILLS & INTERESTS

Skills: Python, JavaScript, React, Java, SQL, HTML and CSS

Frameworks and Tools: Flask, Bootstrap, TensorFlow, OpenCV, MySQL, MongoDB, Git

Areas of Expertise: Full-Stack Development, UI/UX, NLP, Computer Vision, Critical Thinking, Debugging

Interests: Artificial Intelligence, Machine Learning, Open-Source Community, Software Development

Certificates: MERN Full-stack, IBM Blockchain, Applied Machine Learning

CO-CURRICULAR ACHIEVEMENTS

- Conducted extensive research on Information Theory and machine learning models, exploring their applications, implications, and performance.
- Actively participated in multiple hackathons, where I showcased skills in problem-solving, collaboration, and rapid prototyping.
- Contributed to open-source projects, including GSSoC 24 and Omdena, where I performed data processing tasks and analysis for Omdena Inc., helping drive data-driven solutions for real-world problems.

EXTRACURRICULAR ACHIEVEMENTS

- Organized cultural events under the Malayalam Club and participated in inter-club competitions, including treasure hunts, puzzle-solving, and team-based activities.

Hobbies: Exploring different cuisines, solving logic puzzles, and fitness training

Languages: English, Hindi, Malayalam
